

Ballast 20mm

Product guide

Heidelberg Materials Ballast 20mm is a single-sized gravel aggregate conforming to the requirements of BS EN 12620. Use as an 'all-in-one' aggregate with cement and water to produce coarse concretes. This product is suitable for use in concrete for footings, foundations, setting posts and steps.

Mix design

For detailed advice on concrete mixes and their constituent materials please consult BS 8500 Parts 1 and 2. For general guidance refer to www.packedproducts.heidelbergmaterials.co.uk/en/products/baseaggregates/20mm-ballast
