

# Cumbrian Red Gravel

## Product guide

**Heidelberg Materials Cumbrian Red Gravel is a 14mm single-sized red albite-biotite chipping. It is used in combination with cement, sharp sand and water, in suitable mix designs – to produce concretes for footings, foundations, setting posts, steps, etc. May also be used as a top dressing for paths and driveways.**

### Applications

For use in flower borders, ground cover, infill around ponds and plant pot topping. This product is not suitable for fishponds or aquariums. We recommend that this product is re-washed in clean, fresh water prior to use. Decorative aggregates are natural products and variations in size and colour may occur due to geographical and processing variables.
