25

## Grano Dust

Available in bulk bags and Maxipacks.

Ideal for use underneath artificial grass/turf as well as pathways for adequate drainage.

## Playpit Sand

Available in Maxipacks.

Ideal for use in sandpits and play areas, specially screened and cleaned silver sand which does not stain clothing.

## Silver Sand

Available in Maxipacks.

Ideal for use as plant bedding, top dressing for lawns, compost when mixed with peat. Sand for decorative applications, which aids drainage.

## NEW Rock Salt

Available in Maxipacks.

Rock Salt is a durable de-icing material used to efficiently melt snow and ice on roads, paths, and car parks, helping maintain safe and accessible surfaces throughout winter.

# Fast Set Postfix High Strength

## Plastic bag

A ready to use fast setting, high strength concrete with aggregate for fixing all types of post. It sets in 5 minutes but also has a 25 newton strength when fully cured for heavy weight industrial posts. One bag makes enough for one post. Ready to use, just add water.

Packaged in extra tough weatherproof plastic that can be stored outside, and is easier to open and pour from the bag.

### Recommended for:

- All types of post

# 40N Concrete

## Plastic bag

A high strength 40N concrete suitable for repair works – steps and paths, wall foundations and general purpose concrete projects. It's low carbon as it contains the cement replacement evoBuild low carbon GGBS. Can be used where access is restricted for ready-mix concrete delivery.

Packaged in extra tough weatherproof plastic that can be stored outside, and is easier to open and pour from the bag.

### Recommended for:

- Shed and hot tub bases
- Footings
- Foundations
