

# Decarbonisation of fleet through electrification

23<sup>rd</sup> September 2026, 11am to 1pm

[Click here to book your place](#)

The electrification of vehicle fleet is a topic affecting most businesses. In partnership with Volvo this seminar discusses how we are decarbonising, using real-world examples. Lunch and networking is included.

Places are limited and demand is typically high. To ensure we can accommodate those most able to attend, we ask that you only register if you intend to join us in person. Unconfirmed places may be released to a waiting list.

Heidelberg Materials evoHub,  
Techspace,  
140 Goswell Road,  
EC1V 7DY, London

Easily accessible from  
Faringdon and Barbican  
underground stations.
