

Innovative Products in Asphalt seminar

16rd July 2026, 10:30am to 2pm

[Click here to book your place](#)

Asphalt is an essential construction material which is benefiting from constant innovation. In partnership with Shell, this in-person seminar covers how carbon is being reduced and performance of asphalt. Lunch and networking is included.

Places are limited and demand is typically high. To ensure we can accommodate those most able to attend, we ask that you only register if you intend to join us in person. Unconfirmed places may be released to a waiting list.

Heidelberg Materials evoHub,
Techspace,
140 Goswell Road,
